Description

Join our specialist building surveying team and be part of a wider multi disciplinary environment delivering a full suite of building surveying services. We offer unique and extremely varied work with many high profile clients.

You'll manage several projects at any one time, most likely all falling within different sectors. Whether its local, national, or international, we work on pretty much anything property related across the public and private sector.

This blend of work and along with our in house property professionals will allow you develop and expand in your role and ultimately help you gain your Chartership with the RICS.

How to apply

For more information and to apply, please see the **website**.

As our Apprenticeships are incredibly popular, apply early as some roles may close sooner than advertised.
