Business

Broadcasting

Training provided

Level 6 Broadcast and media systems engineer apprenticeship

Pay details

£24,650 pa

Requirements

- 112 UCAS points
- A Level maths, or extended BTEC in Engineering with Engineering Maths, or an equivalent qualification
- GCSE maths and English at grades 9-4
- Fascinated by how things work
- Problem-solving
- Can manage multiple deadlines and demands on your time
- Calm and focused approach to changing circumstances
- Self-starter, flexible and adaptable to out-of-hours working

Minimum age

18

Description

- Develop your understanding of how live content is acquired and presented to studios, recording areas, playout facilities and distribution platforms in the formats they each require
- Learn how we manipulate audio and video and grow to understand the challenges faced in servicing a large broadcasting organisation
- Develop operational and engineering skills, learning how to use a variety of tools and systems, as well as how they work and what we do when things go wrong
- Develop teamworking and communication skills, working as part of a varied team providing services, and talking directly to other departments across the BBC
