Construction management technical apprentice (September 2027 start)

Location: **Leeds, Salford**

Posted: **18th November 2026**

Employer: **BAM**

Role type: **Apprenticeship**

Entry Requirements:

Building a sustainable tomorrow. That’s our mission and our promise at BAM. It’s how we engineer vital infrastructure and construct high-quality buildings as one of the largest construction companies in Europe. With around 6,500 employees, we operate in Construction, Civil Engineering, Ground Engineering, Energy, Property Development, Facilities Management, and Site Solutions.

Business

Construction

Training provided

Level 4 Construction site supervisor

Pay details

£23,000 pa

Hours

42.5 hours per week

Requirements

- 2 A Levels in STEM subjects, finance, business or economics or equivalent
- 5 GCSEs at grades 9-4 including English, and maths at grades 9-5
- Disciplined and able to manage degree level study and a busy job role
- A passion and desire to learn and grow within the industry?
- Highly numerate with an attention to detail
- Able to adapt when priorities change
- Happy to work on site and travel as and when required
- Punctual, reliable, and committed to delivering high-quality work
- Strong communication and teamwork skills

This is a regional position, however candidates must be willing to travel to site and work away from home when necessary. A full UK driving licence is not essential for this role; however, you must be able to travel independently and reliably to our sites and offices as required.

Minimum age

16

Description

Construction managers are the construction professionals who make up our site management team. Our construction management apprentices work predominantly on site, supporting the delivery of projects. Your day to day will include:

- Being part of real construction projects and work closely with our skilled workforce
- Applying your learning and knowledge in real world scenarios
- Liaising with clients and managing subcontractors
- Managing quality
- Managing the supply of materials and labour
- Helping to ensure that projects are delivered safely and on time
- Monitoring and recording delivery against the agreed programme and construction methods
- Ensuring that works are accurate and set out before work commences

How to apply

Please apply on the company's **website**.
