

# Customer Engineering Apprentice

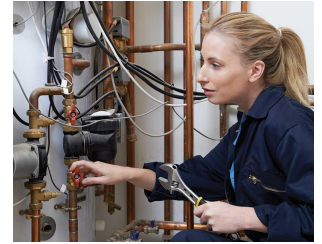

Location: **Huddersfield**

Posted: **24th June 2026**

Employer: **Northern Gas Networks**

Role type: **Apprenticeship**

Entry Requirements:

**Northern Gas Networks deliver gas to 2.9 million homes and businesses across the North East, Northern Cumbria, and much of Yorkshire, through a network of over 37,000km of underground pipes. Serving both major cities and rural communities, we are committed to safety, reliability, and innovation.**

## Business

Gas distribution

## Training provided

Level 3 Gas engineering operative

## Pay details

£23,027 per annum

## Hours

40 hours per week

## Requirements

- GCSE maths, English, and a science at grades 9-4
- Full UK manual driving licence
- Attention to detail
- Good communication skills
- Team worker
- Calm and focused under pressure
- Comfortable with hands-on work and keen to learn

## Minimum age

18

## Description

You'll attend a range of callouts to assess what's happening and take the right action. You'll support customers when something's not right in their home, helping to resolve gas-related issues safely and effectively.

A key part of the role is supporting vulnerable customers. This could be someone who is elderly, unwell, living alone, or unsure of what to do when a gas cooker goes wrong. You'll take the time to listen, explain what's happening and reassure customers, to make them feel safe and supported before you leave.

This is a hands-on role, so you'll need to be comfortable:

- Wearing PPE and working safely within set procedures
- Working outdoors in all weather conditions

- Carrying out practical work
- Following our clean-shaven policies

### **How to apply**
